

CRITICAL FACILITIES ROUND TABLE

4th Quarterly Meeting - 365 Main Exchange Meeting Minutes and Presentations

Next Meeting
Intel Corporation, Santa Clara
April 19 from 1 to 5 pm

Meeting Minutes:

The 365 Main Exchange and Chris Dolan hosted our 4th quarterly meeting of the Critical Facilities Round Table in downtown San Francisco. Over 20 attendees enjoyed 3 presentations, lunch and a tour of the Main Exchange data center's advanced earthquake design and rotary UPS systems.

We discussed CFRT Charter and Purpose, present minutes from last quarterly meeting, assess CFRT and Committee progress, present the status of our web site, and request member input for future events and direction.

Presentation Review from Previous Meeting:

"Seismic Risks for Data Centers", by David Bonneville, Degenkolb Engineers

New Presentation:

"Data Center Security and Emergency Response", by Ed Chandler, CPP, Chairman, Security by Design

Ed Chandler has over 25 years of experience with critical facilities asset protection involving the design of security, fire protection and data center coordination. (presentation attached)

New Presentation:

"Operating, Maintaining and Testing your Critical Facilities" by Bob Atkins, Principal, EYP Mission Critical Facilities.

Bob Atkins Manages Critical Facilities Assurance for EYP Mission Critical Facilities western region. He has over 30 years of experience managing and improving the operations of complex facilities for Fortune 500 companies. (condensed presentation attached)

Special announcement:

PG&E announced program to assist data center managers improve energy consumption and reduce costs. Patsy Dugger and Bill Dunkle from PG&E's Savings by Design group provided details about the program. (reply to this e-mail for more info)

Announcements regarding upcoming industry events, noteworthy information from the web, and future CFRT activities. Discuss the how we can have an impact on the Critical Facilities industry.
